

# Nappan Field Day 2016

## Forages – The Atlantic Advantage

Join us for the 2016 Nappan Field Day to learn how you can save money through improved pasture management practices. See how innovative seed mixtures produce better pastures that support higher animal gain per hectare.

Where	When	How
Nappan Experimental Farm	Saturday, January 9 <sup>th</sup> , 2016 (Storm day January 16 <sup>th</sup> )	Video conferencing available at select locations

### Agenda

9:00 to 9:30 am	Registration and coffee	
9:30 to 9:45	Opening Remarks - Overview of forage and pasture management research in Atlantic Canada	Dr. Benoit Girard, AAFC
10:00 to 10:30	Beef Cluster Results – Forage mixtures for improved beef gain on pasture	John Duynisveld, AAFC
10:30 to 11:30	Beef Cluster Results – Forage species and varieties that perform well under grazing	Dr. Yousef Papadopoulos, AAFC
11:00 to 11:30	Beef Cluster Results – Forage mixtures to enhance pasture quality	Drs. Gilles Bélanger and Gaëtan Tremblay, AAFC
11:30 to 11:45	Leveraging AAFC Forage Research	Tanya Dykens, AAFC
11:45 to 12:15	Cape John pasture update/mob grazing results	Jonathan Wort and Dr. Kathleen Glover, Perennia
<b>12:15 to 1:00 pm</b>	<b>Lunch (chili, roll, dessert) – videos on screen over lunch</b>
