The wool shipment will be going to Canadian Co-operative Wool Growers Limited in Carleton Place, Ontario again this year. All wool can be shipped - this years clip and last years clip, please nothing older than that and WET wool is also unacceptable. Please tie all bags well and label each bag inside and out with our name, address and very importantly your phone number. Also mark on each bag which one it is, i.e. 3 of 25 bags.

As you probably already know there is now a year-round Wool Depot open to receive wool at Atlantic Wool Growers Supplies, please call and make an appointment to deliver wool (902) 895-4039.

If you have a lot of bags, please try to come on the Saturday as there will be help to unload on that day straight into the trailer.

***** All types of wool accepted. Bags should be labelled well inside and out!*****

Wool payments will be made directly to producers at a later date after grading and according to prevailing wool market conditions by CCWG, Carleton Place, Ont. There is no longer a check-off on the wool as the NS Wool Marketing Board has ceased operating.
