

Emerging Sheep Health Issues Seminar

As part of the Modern Shepherd Course, Dalhousie University Faculty of Agriculture, the Sheep Producers of Nova Scotia and Perennia are pleased to present this very informative session for sheep and goat producers. This is a great opportunity to ask questions about your own flock; producers are encouraged to submit questions in advance to jwort@perennia.ca.

Emerging Sheep Health Issues

*Dr. Paula Menzies, University of Guelph
and Dr. Ted Semple, Truro*
